

This joint transnational call will be launched in the framework of the European Partnership [Water4All](#) and will support research and innovation projects to improve water security in the long term. The context for the general call topics are described in Theme II of the Water4All [Strategic Research and Innovation Agenda](#), “Water for ecosystems and biodiversity”. Likewise, Themes VI and VII in the SRIA on “International cooperation” and “Governance”, respectively, must be considered as they are cross-cutting issues to all other themes.

In line with the strategic objectives of Water4All, the results of the projects will contribute to the implementation of evidence-based, global, EU and national water management policies and strategies, within the frameworks of the Green Deal, the Water Framework Directive, Just Transition and the Water Action Agenda for UN Sustainable Development Goals. Proposals should show cognisance of appropriate legislation and policy frameworks at national and international levels that are meant to alleviate global change impacts on aquatic ecosystem services.

TOPICS

1. Mapping, monitoring, and assessment for a better understanding of ecosystem services in a context of changes, from local to global change.
2. Understanding and predicting multiple pressures (incl. anthropogenic pressures) - impact - response relationships in ecosystem services through advanced methods and techniques.
3. New tools and solutions for a better integration of ecosystem services into the management of water resources.

PARTICIPATING COUNTRIES

Please note that the information here provided is provisional and subject to the approval of the call text by the European Commission. Changes may occur in the official Call Announcement.

The eligibility and evaluation criteria will be published at the official launch of the call in September 2023. More information is available at: www.water4all-partnership.eu
